Big SIR Report: By Bob Earl

It was brought to my attention to remind everyone about bringing your wives, girlfriends or both to our BBQ. Not only that, even your neighbors, friends and acquaintances are welcome. The more, the merrier. It would be good if ya'll (I still have Georgia on my mind) brought your own utensils and plates, unless you like to eat with plastic knives and forks out of a paper plate. I don't think you can get a better bargain anywhere with our BBQ. Our speaker, Rudy Tenes, the bull fighter, was disappointing to say the least. Very little information was given about the sport. His broken english was difficult to understand, especially while sitting down and not using the microphone correctly. Our next speaker in July, Scott Henningson, should be an improvement with his talk on restoring antique automobiles. Scott is supposed to bring a sample of his work with him to put on display at the lodge. I hope to see a big crowd at our BBQ on the 17th.

OK.... so if the Jacksonville Jaguars are known as the 'Jags' and the Tampa Bay Buccaneers are known as the 'Bucs,' what does that make the Tennessee Titans?
If 4 out of 5 people SUFFER from diarrhea...does that mean that one enjoys it?

JULY SPEAKER

Hello, my name is Scott Henningsen. I was born in Salinas and grew up out by Spreckels and River Road area. I am 29 years old and own and operate Henningsen Machine Shop located at 12 Spreckels Lane, Salinas CA. . I started this business in high school to earn some spending money and it has developed into my livelihood My father and grandfather taught me from a young age how to work on tractors and engines, weld, operate machinery, and many other things. I applied this to working on antique cars which I have always liked. I found out quickly that there was many people that needed things done to there cars, such as tune ups, repairs, adjustments, and all sorts of other small things. So, I started doing these things and earning a little money. I worked every day after high-school and on the weekends. I continued this through college also. In college, I received a degree in accounting which has served me well in running my business.

After getting out of college, I started working full time and have been working on customers cars ever since. I have slowly hired employees and have purchased equipment that helps me in restoring these wonderful old autos. We now do complete restorations on cars from all over the United States. Some of the cars values reach close to one million dollars. Our restorations can be viewed at Pebble Beach Concours and many other car events in the area. Right now, there is about a two year waiting list to have us start a complete restoration, and about a 3-6 month wait on other types of work. We are working on about 6 cars right now and turn them over as we finish them. I enjoy restoring and repairing these old cars and hope to be able to do this my whole life. I am planning on expanding my business more to be able to turn cars out faster than we do now, not compromising any quality.
